

ENVIRONMENTAL POLICY

“Statement of Intent”

MK Pumps & Motors Ltd is committed to continual environmental improvement and sets a number of targets that reiterate this commitment. The Company recognises that its activities will have an impact on the environment and is committed to promoting the protection and enhancing the environment for future generations; this is to be achieved by promoting sustainable practices and acting responsibly, specifically by:

- ensuring environmental legislation is complied with, and fulfilling our statutory environmental responsibilities;
- ensuring that there are arrangements put into place for the effective planning, development and review of the Environmental Management System;
- ensuring that appropriate systems are developed and maintained for the effective communication of environmental matters throughout the Company;
- minimising the use of non-renewable resources and procuring goods and services in an environmentally responsible manner by avoiding waste and encouraging the conservation, reuse and recycling of resources;
- providing a framework where targets and objectives can be identified and reviewed as required;
- ensuring that Employees are consulted and encouraged to participate actively in all elements of the Environmental Management System and look to continually improve this system;
- minimising environmental pollution from all of its activities including the use of energy within the company premises and vehicles in all of its activities;
- promote understanding and participation in environmental issues by Employees and others through education, information and training;
- devoting the appropriate resources to fulfill the commitment given in this policy.

The ultimate responsibility for environmental matters within MK Pumps & Motors Ltd lies with the Environmental Manager.

MK Pumps & Motors Ltd recognises that the successful implementation of this policy is not just a function of management but will require the visible commitment and involvement of all Employees.
